Offix Acquires AmeriComp Imaging Solutions

Manassas, VA, August 22, 2007 — Offix of Manassas, Virginia, has acquired Alexandria, VA based AmeriComp Imaging Solutions.

AmeriComp provides sales, service and supplies of HP, Canon, Brother, Lexmark, Okidata and Xerox laser printers and other reprographics. The offices are consolidating to Offix's facility in Manassas, VA.

AmeriComp, which will now also offer a range of Canon wide-format and color printers, will continue to serve mid market customers in the Northern Virginia and Metro DC areas as a division of Offix located in Manassas, VA.

“The addition of AmeriComp into the Offix fold represents our continued commitment to growth through strategic acquisitions that are good for our customers and good for our company,” said Stephen Valenta, president and CEO of Offix. “With AmeriComp, we strengthen our position in the laser printer market with a company well known for supplying customers with service and supplies of printers with the most competitive prices.”

“While adding to our products and services, AmeriComp also increases our density of customers and machines-in-field,” said Aaron Steeves Director of Sales. “Additionally, we have complementary skill-sets, which will enable us to cross-sell our customers a broad set of solutions.”

###

About Offix: Offix focuses on businesses of all sizes — from small businesses to Fortune 100 companies that need document management systems such as printers, copiers and multifunction devices and network integration. As an office technology dealer, Offix sell products from various suppliers including but not limited to — Canon, MBM, HP, Ecopy, Ribstone and Dell.
